

SIXTEENTH YEAR.

EARLINGTON, HOPKINS COUNTY, KY., THURSDAY, SEPT. 14, 1905.

No. 37

LOUISVILLE & NASHVILLE

Will Try an Experiment With Newly Invented Motor Between Earlington and Madisonville.

WILL COMPETE WITH TRACTION LINE.

The Henderson Journal is responsible for the following:

"Self preservation is the first law of nature and must be looked after by large corporations as well as individuals. The Louisville & Nashville railroad company among other large concerns of its kind, is seriously investigating the effects on its business of the traction lines that connect the various little towns with each other and the little towns with the big cities, through which the railroads run. Their investigations have proven that a great deal of its passenger traffic is being drawn from it and being taken care of by the traction systems.

"The Louisville & Nashville is only one of the many railroads over the country that finds itself compelled to take some step to retain its trade. The movement seems to be general over the country and recent improvements in gas motor cars have placed the railroads in a position where they can take care of themselves.

"It is given out, not officially, but on pretty good authority, that the L. & N. will try, as an experiment, a line between Madisonville and Earlington, for which it will build another track. When the line between the two Hopkins county cities is complete, cars will be run at short intervals and a very moderate fare will be charged. The company will endeavor to use the latest improvements in all departments of its Madisonville-Earlington line, and the result of its conclusions will be awaited with considerable interest, both locally and elsewhere."

To which the Madisonville Hustler adds:

"The Hustler can not speak authoritatively on the matter but there is a great deal of basis for the article in the Henderson Journal. The growth of the traction lines has stimulated the steam roads to try to find some way of meeting the competition in passenger travel developed by the traction lines. The difficulty with the steam roads has been that the expense of operating cars propelled by steam is too expensive when applied to small cars and frequent trips to be considered practicable, while for large trains like those regularly operated by the steam roads, steam is the most economical fuel that has been found. But steam is not capable of being reduced to small units like electricity and other motive power used by the traction lines, and therefore rapid service like these lines furnish has been considered impracticable by the steam roads. But it is now claimed that a gas motor car has been invented that will enable the steam lines to operate small cars at frequent intervals, between points where such service is considered desirable, and it is altogether likely that a great development will take place along that line in connection with the steam roads.

"The L. & N. has installed a rapid service between Evansville and Mt. Vernon, Ind., recently, owing to the competition the traction line that has

been built connecting these places. At present this service is operated by steam, but if the gas motor invention pans out, the service will be equipped with it."

RURAL FREE DELIVERY ROUTES.

580 in Kentucky on September 1st With 193 Petitions Pending.

Washington, Sept. 13.—A bulletin has been issued by the Postoffice Department and it shows that on September 1 there were 580 rural routes in operation in Kentucky, and 193 petitions for additional routes were pending. The Eleventh is the only district in Kentucky that has no rural routes, and twenty petitions from that district are pending, seven having been rejected. The Second Congressional district has 100 routes with petitions pending for 23 more. In the country at large 32,927 rural routes were in operation September 1, with 4,780 petitions pending. Kentucky ranks seventeenth in the Union in the number of its rural routes; Illinois leading, with Indiana, Iowa and Ohio each having over 2,000 routes.

DARK TOBACCO GROWERS

Secure Contract for Furnishing Italy With American Tobacco.

Hopkinsville, Ky., Sept. 13.—An important meeting of tobacco men, representing several states, was held in this city yesterday, among those present being J. Ferigo, of New York, W. G. Dunnington of Farmersville, W. Va.; E. R. Tandy and G. H. Warneken, of Clarksville, Tenn., and William McMurray, of Springfield, Tenn. It was stated by Mr. Ferigo, who represented the tobacco interests of the Italian government, that contracts have been closed with Tandy & Farleigh to continue buying for the Italian government in the Hopkinsville and Clarksville districts, and with Williams McMurray, of Springfield, and W. C. White & Co., of Cadiz, to buy from these districts. T. J. Stahl would also continue to buy for them at Paducah. The other eight contracts for this section are Field Bros. of Fulton, Gardner & Walker of Mayfield, Griffin & Barnett of Murray, Ky., and Moss & Lewis at Martin, Tenn. This district furnishes 14,000,000 pounds of dark tobacco to the Italian government alone.

Morton Theatre Opens.

The Morton Theatre will open the season Friday night, Sept. 29th, with the big comic opera success, "When Johnny Comes Marching Home." This opera, with its tuneful numbers, and pretty pictures of southern life, was one of last season's greatest successes, and winning applause this week at the Olympic Theatre at St. Louis. The cast includes some of the best talent today on the stage. The chorus is pronounced by critics as being one of the strongest seen in St. Louis, in years, the Hipp skit ballet being a decided novelty.

Providence Train Will Be

Held on Account of Sebree Fair.

On account of the Sebree Fair September 20th to 23rd, the Providence train will be held at Sebree each day until 4:45 p. m. in order to accommodate people from Providence, Earlington, Madisonville and intermediate stations who may desire to attend the big fair. This will enable people living south of Sebree to spend the entire day at the fair and arrive home in time for supper. The usual half-rates will be given by the railroad.

FRATERNAL BUILDING PROPOSED.

New Block for Earlington to be Especially Equipped for Lodge Purposes.

FRATERNAL ORDERS ASKED TO CO-OPERATE IN SECURING

Project Believed Practical to Erect Building that Will be Credit to Earlington.

There is a plan on foot for the erection of a modern, new, brick block to become the "Home of Fraternity" in Earlington. The project, which has been forming for some time is now made public in letters addressed by Paul M. Moore to the officers and members of the various fraternal orders now holding their meetings in the Old Masonic building. These orders are generally strong in membership and in good, growing condition, and it is conceded that they deserve, and can have if they choose, such well-equipped quarters, thoroughly adapted to lodge users as would be a credit both to themselves and to Earlington. The officers and members of these orders are asked to consider the question and to take official action by appointing committees with power to act so that cooperation may be had in a way to make the execution of the project possible at an early date.

A few personal friends, who are members of the different orders, were consulted by Mr. Moore before any announcement was made and these endorsed the movement in an unqualified manner.

The consensus of opinion was that the project was wholly practical and one on which all could and should get together.

August 24, 1905.

To the Officers and Members of Lodges, Earlington, Ky.

Gentlemen: Having consulted with several personal friends who are members of different secret and benevolent orders in Earlington, I have become confirmed in the belief that your organization and the others represented here desire better quarters than you now occupy; and have reason to think that you will be sufficiently interested to co-operate with me in a plan to secure a new building, arranged especially for the use of the fraternal orders.

In addressing this letter to you I do so with the assurance that my action is not objectionable to the owners of the building you now occupy. I might go further and say that I have their endorsement, through proper official source, in this movement, which I hope may eliminate in a complete and well equipped building that shall become the permanent home of the fraternal orders in Earlington.

With the co-operation of yourselves and the other fraternal orders here, the friends with whom I have consulted join me in the belief that the proposed new building could be erected with two excellent lodge rooms, ample ante-rooms and hallways, and separate property rooms for each order making its home in this "Hall of Fraternity."

The project contemplates electric lights, steam heat and janitor service. All this, we believe, can be had for you at a very reasonable figure, provided there is a hearty co-operation on the part of all the fraternal orders now meeting in your lodge rooms.

To build and equip as proposed such quarters, you will recognize, will require considerable investment, and while such investment could only be justified when made upon proper guarantees for future occupancy. I believe it can be arranged upon terms that will be attractive and satisfactory to you. Please consider this at your next

meeting and, in order that there may be an expression from you, and an opportunity to canvass the matter officially, will you not name a committee of say three to act for you and discuss with me the possibilities of such a plan? If you are interested in such a betterment—one that can be made a distinct credit to Earlington—I believe it can be accomplished.

Let me assure you that I shall not think of undertaking such a project except with the complete endorsement and co-operation of the fraternal orders of Earlington, upon such a basis as will guarantee excellent service and complete satisfaction to you.

I shall be away from home for awhile and in the meantime these committees can be named by the various organizations so that we shall be able to take the matter upon my return and if all goes well, get the building under headway before the winter.

Such a letter as this has also been addressed to the other orders that occupy your lodge room.

Trusting that this may seem to you good and that we shall be able together to accomplish this undertaking, I am

Yours fraternally,

PAUL M. MOORE.

The orders to which this letter was addressed are the Ancient Order of United Workmen, United Order Golden Cross, Independent Order of Odd Fellows, Knights of Pythias, Order of Red Men, Macabees, Ladies of Macabees, Ladies of Honor, and Tribe of Ben Hur. All are in prosperous condition and are sources of constant benefit to the community. Such a building as is proposed would add both to the comfort and dignity of these fraternal organizations and become a source of constant satisfaction to these orders and the public generally.

Henderson Division Time Keeper is Given Farewell Party.

Howell, Ind., Sept. 11.—In honor of Mr. and Mrs. H. E. DeJarnett, who will soon remove to their beautiful new home on "Forest Hills," which lies between Howell and Evansville, a farewell party was given at the home of Mr. and Mrs. A. Smith, 213 Ewing avenue, Howell, last Friday evening.

A quartette composed of Mr. and Mrs. M. F. and Mr. and Mrs. R. H. DeJarnett delightfully entertained the large number of friends in attendance with their excellent rendition of popular songs. Mrs. J. W. Logan, who is a master pianist, added much to the enjoyment of the evening with several instrumental selections. Refreshments were served at a late hour.

Mr. H. E. DeJarnett, known as "Ed" is the Henderson Division timekeeper in the master mechanic's office at Howell. Mr. A. J. Smith is a brother of M. H. Smith, president of the L. & N. Railroad.

St. Louis Division Engineer is in Two Weeks in One Week.

Howell, Ind., Sept. 11.—Engineer J. W. Logan and Fireman J. D. Raede were dead heading from E. St. Louis on the 4th when train 51 was derailed at Upton. They were pretty badly shaken up, and more or less frightened. Mr. Logan on his return to Howell resumed his place on the suburban run between Evansville and Mt. Vernon, Ind., which the boys have christened "The merry-go-round." On the 7th the engine left the track and turned over, both engineer Logan and Fireman Raede being obliged to stay with the engine, as there was no warning and they had no time to jump. The engine turned over on the fireman's side, so that he was pretty badly injured. Engineer Logan escaped without injury.

MOORE ACQUITTED.

Evidence in the Case Proved That He Acted in Self Defense.

Upon examining trial before Judge Bradley at Madisonville Monday Rowland Moore was acquitted for the killing M. Murrah at Chesley Sunday, August 27th.

The testimony given at the time of the trial proved that Murrah was advancing on Moore with a draw knife and that Moore did all he possibly could to avoid him, but when cornered stabbed him twice, once in the wrist and again over the heart the latter wound proving fatal.

The killing created no little excitement at the time it was done. Murrah was a hard working man of good reputation and very quiet when sober, but when drinking as the evidence in the case showed he was a dangerous man.

After all the evidence had been heard Judge Bradley was of the opinion that the killing was done in self defense and so instructed.

Kentucky Crop Report.

The month of August was very seasonable. Some localities complain of most too much rain, and some of not enough. But, as a whole, crops have not suffered materially by either drouth or excess of rain.

The corn crop is a good one. The only complaints are, that on low, wet lands it suffered for want of proper cultivation and some of it drowning out. But taking the State over, the crop is a full average.

The yield of wheat per acre is a little below the average for the State. Oats and rye are above the average.

The tobacco crop is also a good one, and an unusual amount has been housed for the time of year. There was some damage done by worms, and in some localities it suffered for cultivation. There is also some complaint of house-burn of the early cutting. There seems to be quite a good deal of the 1904 crop still in hands of the farmers. Fourteen per cent of the burley and 25 per cent of dark remains unsold September 1st. Prices of tobacco of the 1904 crop, compared with prices of the previous crop, were for burley 14 per cent less, while that of dark was 16 per cent more.

The hay crop is a full average in quantity, but a large per cent of it is more or less damaged by excessive moisture at the time of harvesting.

Live stock of all kinds are reported in good condition. No disease of any kind is reported from any county in the State. About the usual number of young colts and mules are reported. Breeding cattle and sheep are about an average, while breeding swine are a little below. On the whole, the farmers seem to be in good shape so far as an abundant harvest is concerned.

All Hot Air.

The Dawson Oracle says the report of a company of eastern capitalists purchasing the New Century and Arcadia hotels at that place, and that this company will make Dawson a winter resort, is all hot air. The report was published in a Paducah paper, and said that Peter Arundel, the Louisville capitalist, was at the head of the movement.

The population of the United Kingdom on March 31 last was 43,219,778. England and Wales had 34,132,977, Scotland 4,679,933 and Ireland 4,399,268.

Is the Young Man Safe?

This is a very important question and appeals to every good man and woman in our county. If our young men are safe then our city and county are safe. Every intelligent person knows that the peace and prosperity of our city and county depends upon our young men being right and safe. This fact needs no argument. This being true, it is the duty of every man and woman to do all in their power to see to it that proper safe guards are thrown around our young men.

In this direction there is no better investment you could possibly make than in assisting in raising the necessary money for the erection and furnishing a Young Men's Christian Association Building at Madisonville. Said building will be a safeguard to the young men of our county. It will afford them a refuge from the saloons and other vice places.

The young men come to Madisonville, and in doing so they are in danger of bad associates. Help us in the erection of this building and we can then afford the young men a place of refuge and comfort and pleasure, when they come to town.

There is no investment that you could possibly make that would pay you a larger interest. If you love the young men, you can not refuse to help in this good work.

To the men and women who have contributed to this cause we express our sincere thanks and to all who have not contributed anything, we beg you in the name of the Lord and the young men of our County to be as liberal as you possible can, and to signify your willingness to assist in this good work at once.

The lot on which this building is to be erected has been purchased, and the plans for the building are complete, and we desire to commence the work of erection just as soon as we possibly can, so we beg all the friends of the young men of our county to come to our assistance at once. God will bless you for helping in this great work. Contributions will be cheerfully accepted and properly reported by any member of the undersigned Committee or the County Secretary.

I. Bailey, R. P. Shackelfte, G. W. Chapman, T. O. O'Bryen, Ed. Thompson, A. D. Melton, Abner Johnson, T. E. Finley, R. M. Hall, R. P. Dodge, W. L. Gordon, Madisonville; D. C. Morrow, J. D. Bobbitt, Nebo; W. H. Weir, Robt. Gentry, Hanson; J. McEuen, St. Charles; A. E. Orton, Dawson Springs; A. E. Hill, Manito, Peter Whitmer, Elm Grove, Frank B. Arnold, J. B. Blanks, Earlington; Roland Crabtree, Old Salem.

B. R. Ashby, County Secretary, Madisonville.

Free Tickets.

Any old soldier who lives in or near Earlington and wishes to attend the Webster County Fair held at Sebree, Ky., on Friday, Sept. 22nd, can secure a free ticket into the fair by calling at THE BEE office for same. These tickets are good only for one day and must be used on Friday.

Teeth Extracted Free For the Next 5 Days.

Souvenir cards at St. Bernard Drug Store.

Little Tommy Featherstone is quite ill this week with fever.

J. D. Mescham and family, of Kelly's, have located in this city.

Work has begun on Dr. Nisbet's new residence on East Main street.

Operator Larkin, of Madisonville, is off a few days on account of being ill.

Beautiful souvenir cards for sale at St. Bernard drug store two for five cents.

A limited supply of souvenir cards fancy designs at St. Bernard drug store. Two for five cents.

Mrs. Agnes Finley, of Attonity, Tenn., who has been quite ill with fever, is improving nicely.

Of course you are going to the Big Webster County Fair at Sebree, Ky., September 20, 21, 22, 23.

J. W. Porter, of Madisonville, who has been suffering from erysipelas for several days, is improving.

Fresh lot of Bliss' Native Herbs, Oil and Cream at Geo. W. Figeley's, next door to Ross' drug store, Madisonville.

Born, to Mr. and Mrs. Joe Hale, Wednesday night of last week, a fine girl. Mother and child doing well.

More free attractions offered at the Big Webster County Fair than any fair ever held in Western Kentucky.

The Providence Accommodation train will be held until 4:15 p. m. at Sebree during the Big Webster County Fair.

Mrs. Chas. H. McGary, who was recovering from an attack of typhoid fever, has suffered a relapse and is quite ill.

Wagon, buggy, surrey and a nice line of Jersey cows with calves for sale or trade for any old thing. W. C. McLeon.

The Ladies Aid of the Christian church has presented the church cloths for the communion table and a baptismal suit.

Get in the swim and send your friends a souvenir card. You can get them at the St. Bernard drug store.

Every one likes beautiful souvenir cards. Call at the St. Bernard drug store and make your selection before they are all gone.

"Vegetated Calomel" never gripes or salivates. "Vegetated Calomel" prevents summer complaints. Sold by Baker Drug Store, Princeton, Ky.

Mr. B. V. Woodruff and Miss Rickie Kauper were used in marriage at St. Charles Wednesday morning, Howard J. Brazleton saying the ceremony. Only a few invited friends were present. The happy couple left immediately for Cincinnati, Ohio, where they will reside.

CASTORIA
The Kind You Have Always Bought
Beware of Imitations
Signature of *Wm. D. Galt*

Dr. B. M. White, of Madisonville, has returned from Nashville, where he purchased a new and full dental equipment and with Dr. Hosen will re-open in the building over Sory & Sory's drug store and are now ready for business.

Mrs. R. N. Clark returned home Friday after a month's visit in Michigan. She went to Marquette, Negaunee, Ishomung Rockland and Ontonagon, where she visited relatives. She reports an enjoyable trip.

Mr. and Mrs. N. W. Miller will begin a night class for boys at their home on Farren avenue, Tuesday, Sept. 26th. This will afford boys who work an excellent opportunity to continue their studies. Mrs. Miller has had a wide experience in both public and private school work.

A certain young married lady in Earlington dressed up in her husband's clothes the other night and called on two other young married ladies who happened to be at home by themselves. She opened the door and went in without ceremony. The two ladies asked him or rather her what was wanted. The bold intruder demanded their money or their lives and pulled a long dangerous looking knife from a place of concealment made a vicious lunge at the two now thoroughly frightened females. The supposed robber next demanded that they get down on their knees and beg for mercy. They did so with alacrity. About this time the robber became so amused she laughed aloud and her two friends soon discovered her identity.

Hooligan's Funny Show Coming.

That announcement means a night of joyous mirth and heart uplifting fun to all who have seen him before and all to whom the exquisite experience will be new. Hooligan and "Hooligan's Troubles" have become synonymous and both are synonymous with fun. The merry comedy will be presented precisely as it is in New York, brim full of rollicking humor and presented by clever comedians with brilliant costumes and novel specialties. A rattling good time may be had by all who attend the performance. Friday, Sept. 15. A big seat sale is expected for "Hooligan." Temple Theatre. Prices 25, 35 and 50c.

To the Public.

I have just opened a grocery and will add general merchandise and will be very thankful to the people of Earlington for their patronage, and will insure you fair treatment.

J. J. SULLIVAN,

THE GRAND LEADER

Settles in Full With Insurance Companies and Opens Up Anew in Buck's Old Stand in the Dempsey Block.

Morris Kohlman, manager of the Grand Leader, recently burned out in Madisonville, informs THE BEE he has settled in full with the insurance companies and is moving the stock saved from the fire into Buck's old stand in the Dempsey block. In addition to the goods saved from the fire this firm had over \$5,000 worth of goods in transit that will be added to the stock and they will be straightened up and ready for business by Saturday, Sept. 23. They expect to put the whole of these goods on the market at a greatly reduced price and the public can pick up some rare bargains from this firm. Look out for the page advertisement in the next issue of THE BEE advertising the big fire sale of the Grand Leader.

State of Ohio, City of Toledo, ss.
Lucas County.

Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County of Lucas, State of Ohio, and that he is a resident of said city and county, and that he is the owner of the said firm.

He will pay the sum of One Hundred Dollars for each and every case in which he has been convicted by the use of Hall's Catarrh Cure.

FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December, 1886. A. W. GLASCOCK.

Notary Public.
Hall's Catarrh Cure is taken internally, and acts directly on the mucous surfaces of the system. Send for testimonials free.

F. J. CHENEY & Co., Toledo, O.
Sold in all drug stores.

Take Hall's Family Pills for constipation.

Howard J. Brazleton preached at Mornings Gap Sunday afternoon. He has been engaged to preach for the church there two Sunday afternoons each month until a regular preacher is secured.

John Myers, who graduated from the Lexington College last July, accepted a position in the company store here this week. John is a deserving young man and will no doubt give good satisfaction.

Our public school opens next Monday, the 18th. The prospect for a larger attendance than ever before is flattering. Let all the boys and girls of the town of school age be present at 8:30 o'clock Monday morning.

Foley's Honey and Tar
heals lungs and stops the cough

The Old Fiddlers' contest which took place at Nortonville last Friday night, was largely attended, and an unusually large number of contestants competed for the various prizes, which ranged all the way from a shaving brush to a pair of \$4.00 shoes. Quite a number attended from this place and all report getting the worth of their money.

Numerous complaints are made about people growing plump chickens and other carcasses in the creek to get rid of them. This should not be done as it is very offensive to people who live near the creek, besides it is the cause of much sickness. Dead animals and fowls should be buried in compliance with the city ordinance.

PERSONALS

Mrs. B. Williams, of Paducah, and Miss Gertrude Blackburn, of Clay, are visiting their sister, Mrs. Frank Fox, this week.

Miss Virgie Rule was the guest of Miss Amelia Price, of Madisonville, Saturday and Sunday.

Miss Biehle Stone visited Miss Bonnie Pritchett, of Madisonville, Sunday.

Mr. and Mrs. Hop Holman, of Madisonville, were in the city Saturday.

Mrs. A. Fawcett, who has been the guest of her son, J. E. Fawcett, of this place, for several weeks, returned to her home in Yazoo, City, Miss., this week.

Earnest Raab, manager of the Victoria coal company, was here this week on business.

Mrs. J. E. Fawcett and children were in Guthrie Saturday and Sunday visiting the family of her brother, Granville Jordan.

LOCOMOTIVE BLASTS

THE ENGINE'S SONG.

Through city and forest, and field and glen,
I rush with the roaring train;
My strength is the strength of a thousand men,
My brain is my master's brain.
I borrow the senses of him within
Who watches the gleaming line;
His pulses I feel through my frame of steel,
His courage and will are mine.
I hear, as I swoop on the upland curve,
The echoing hills rejoice
To answer the keel of my frozen bell,
The laugh of my giant voice.
And, white in the glare of the golden ray
Or red in the furnace light,
My smoke is a pillar of cloud by day,
A pillar of fire by night.
—Arthur Gutterman, in Four Track News.

The twelfth International Conference of the Railroad Department of the Young Men's Christian Association will be held at Detroit, Mich., Sept. 28 Oct. 1. Railroad men are expected to attend from all parts of the United States. The number of railroad employees attending the last similar conference was over 2,000. Hon. John F. Cook, of New York, one of the leading railroad men of America, will preside at all sessions. Among the list of railroad officials who will appear on the programme are Russell Harding, President of the Pere Marquette; Geo. W. Stevens, President of the Chesapeake & Ohio; W. C. Brown, Vice President of the New York Central Lines; F. A. Delano, First Vice President of the Washburn Railroad; W. A. Garrett, General Manager of the Queen & Crescent; and W. A. Patton, Assistant to the President of the Pennsylvania Railroad. All of these men have accepted invitations to speak and have topics assigned.

Another wreck occurred on the St. Louis division at Lamott, Ind., a switch three miles east of Mt. Vernon, at 1:15 o'clock last Thursday afternoon. No one was injured except the fireman, who was slightly injured when the engine derailed. None of the coaches left the track and the passengers escaped with a severe shake-up. No. 51 was over three hours late arriving at this place on account of the wreck that afternoon.

No. 51 was delayed about forty minutes here one evening last

week while repairs were being made on the engine. It was over one hour late upon its arrival here and nearly two hours behind its schedule when arriving at Nashville.

Engineer Leonard Huff was on the sick list several days last week.

A derail has been put in at the south end of the new switch at Victoria mines to prevent cars from running out on the main track if any should become unmanageable after they are left at that place.

Passenger train crews have been instructed that when they have work to do at Cedar Hill, Tenn., to use the main track north of the Main street crossing.

In order to prevent cars from running on the main track and causing accidents to passing trains a derail has been placed on the old north passing switch at Cedar Hill.

J. F. Whitsell, Romney Harris, Eugene Smith and F. W. Erwin, of Earlington round house, went to Howell Monday to be examined for firemen.

Sam Gray, the engineer at the Guthrie coal hoist, has left for Norton, Va., for a ten days' vacation. He is accompanied by Mrs. Gray.

Engineer Sam Manning will leave in a few days for New York.

Thomas Walsh went to St. Louis on business for the Company Friday of last week.

Mr. A. J. Bruning left Sunday for the Master Painters' convention at Cleveland, Ohio.

Dennis Kelly, traveling engineer, is on the division.

A temporary roof has been put on the blacksmith shop which recently burned down at Howell and everything is going full blast.

The dispatches sent out from Hopkinsville and published by the press last week, stating that the Illinois Central and Southern Railway companies had obtained a lease on the Tennessee Central Railroad for ninety-nine years has been officially denied at the New York offices of the companies claimed to be involved in the deal.

Mr. Headley Ashby, of Madisonville, who has been flagman at the Center street crossing of the L. & N. R. R., at that place for several months, has resigned to accept a position with the company as fireman. He is on one of the north chain gang runs between Earlington and Howell.

GRAPEVINE ITEMS.

Most of the tobacco of this section has been housed.

The recent rains have helped everything considerably.

Elder Hudspeth will begin a series of meetings here next Sunday at eleven o'clock a. m. Sunday school will be held at ten o'clock that day.

J. L. Todd and Miss Mayne attended Bro. Fowler's tent meeting near Howell Sunday.

Hazel, daughter of Joe Slaton, who has been confined to her room so long with blood poisoning, is improving slowly. Mr. Slaton contemplates moving to California as soon as she recovers.

According to an order from the postoffice department the rural mail boxes will soon be numbered consecutively.

Mrs. Annes Todd, who accompanied Mrs. A. P. Hanner to Indianapolis, is expected home this week.

There will be an ice cream supper at Stanley's School House Saturday night for the benefit of the school library. A good crowd should contribute liberally to the cause.

The Second District Teachers Association was held at the school house at this place last Friday. There was an interesting program and a bountiful dinner, though there was not a full attendance of teachers present.

Miss Lizzie Haywood, of Hanson, is visiting her grandfather, and uncle, Messrs. Jas. E. and Thos. Slaton.

Mesdames Fannie Slaton and Ella Clark, of the Browners vicinity, visited in this section Monday.

Frank Todd, of the Island, who has been ill with typhoid fever and other ailments, is still very ill and his recovery is doubtful.

Uncle Sam Will Be Neutral.
Washington, Sept. 9.—It is not likely that the United States government will interfere in any way with any action that the French government may take against Venezuela on account of troubles between Venezuela and the French cable company.

Witte Was the Guest of Honor.
New York, Sept. 12.—Mr. Witte was the guest of honor at a farewell dinner given by Melville E. Stone at the Lotus club. The other guests were, for the most part, foreign and domestic newspaper men.

School Shoes THAT WEAR FOR BOYS AND GIRLS.

There is no trouble for the father and mother to step into a shoe department and have a pair of their favorite brand of shoes fitted to their feet and they feel confident that such shoes will be satisfactory; but when the school days have come and the children's footwear must be attended to, there appears to be misgivings as to just where to look for the most satisfactory shoes. The child goes in for "looks," the parent wants "wear," and these two qualities are not always combined in Children's shoes.

• This is our first School Shoe

season since we annexed the Pratt building for our exclusive shoe department. We have laid special stress on having our Children's Shoes built right, and having the room, we have put in three times as many boys' and girls' shoes as we formerly carried. Our "Kick-Me-Hard" line of boys' shoes and our "Sure Good" line for girls contain all the snap that the child can desire and all the wear that the parent could expect. Let us take care of the "Little Folks" and we will then be sure of the "Big Ones."

HESTER'S REPORT ON COTTON

Last Season's Crop Shows Big Gain Over Previous Years—\$15,565,885—505 Bales Brought \$628,195,329.

New Orleans, Sept. 10.—Secretary Hester's annual report puts the cotton crop for 1904-05 at 15,565,885 bales, an increase of 3,554,511 over that of 1903-04. He says that, compared with last year, in round figures, Texas, including Indian territory, has increased 708,000 bales. The group known as other gulf states, consisting of Louisiana, Arkansas, Mississippi, Tennessee, Missouri, Oklahoma, Utah and Kansas, has increased 1,165,000 bales, and the group of Atlantic states, Alabama, Georgia, Florida, North Carolina, South Carolina, Kentucky and Virginia, has gained 1,741,000.

He puts the average commercial value of this crop at \$46.31 per bale, against \$51.68 last year, and the total value of the crop at \$628,195,329, against \$617,501,548 last year and \$489,170,288 the year before.

REPUBLICAN CAMPAIGN OPENING.

Saturday, Sept. 23, at the Courthouse at Madisonville, Ky.

The Republican campaign in Hopkins county will open at the courthouse, Madisonville, Ky., on Saturday, Sept. 23, 1905. All persons are cordially invited to attend.

REPUBLICAN CAMPAIGN COM.

The Misses Fugate, of Madisonville, who were burned out, are now located in the Singer Sewing Machine office in the Hog Eye block opposite Hotel Lucile. They have just received a nice line of fall hats and are now ready for business. Give them a call.

It Quiets the Cough

This is one reason why Ayer's Cherry Pectoral is so valuable in consumption. It stops the wear and tear of useless coughing. But it does more—it controls the inflammation, quiets the fever, soothes, and heals. Sold for 60 years.

Ayer's Cherry Pectoral has been a regular household remedy for generations. It is a severe attack of consumption, and I feel that I owe my life to the wonderful cure properties. —WILLIAM H. TRUITT, Wrentham, Mass.

Made by J. C. Ayer Co., Lowell, Mass. Also manufactured at SASSAPARILLA, PILLS, BARK VIOLETT.

Hasten recovery by keeping the bowels regular with Ayer's Pills.

RUSSIANS SAIL HOMEWARD

M. Witte and Staff Sail From New York En Route for Home.

An Irish Delegation Paid Their Respects to M. Witte and Companions—Ray of Hope for Jews.

New York, Sept. 12.—The Russian envoys, who successfully concluded a peace treaty with the envoys of Japan at Portsmouth, N. H., started on their return to St. Petersburg on the steamer Kaiser Wilhelm II.

Before leaving the city Mr. Witte and Baron Rosen made a farewell call on the Japanese diplomats, who expect to depart for home later in the week.

Shortly before the steamer sailed, Maj. Lynch, of the United States of New York, and 40 members of the Irish club of New York, were received by Mr. Witte. Each member of the Irish club presented to the peace envoys tiny Russian, American and Irish flags.

"We take this opportunity of thanking a country which has been a friend of our adopted country in time of need."

When the bugle sounded for all visitors to go ashore, Mr. Witte and Baron Rosen embraced and kissed each other good-bye.

Before Mr. Witte left his hotel for the steamer he had a conference with Lawrence N. Seligman and Oscar Straus, of this city, and Adolf Kraus, of Chicago.

Mr. Seligman said after the conference: "Mr. Witte allowed us to foresee the emancipation of the Jews in Russia and their participation in the government of the empire in the same degree and proportion that other Russian subjects are allowed to participate."

ALICE IN FLOWERY KINGDOM

Miss Roosevelt and Party, Escorted by Maj.-Gen. Corbin and Rear-Admiral Train, Arrive in Peking.

Peking, Sept. 12.—Maj.-Gen. Corbin, Rear-Admiral Train, Miss Alice Roosevelt and the other members of the

party have arrived here. They were met by American Minister Rockhill and his wife, Baron Mumm de Schwarzenstein, Wu Ting Fang, vice-president of the Chinese board of foreign affairs; Liang Pang and other notables. Miss Roosevelt is the guest of Minister Rockhill and family, and Baron Mumm de Schwarzenstein is entertaining several of the visitors.

NEBO NOTES.

Our merchants are bringing on a large stock of goods and preparing for a big trade.

Not much wheat is being sowed, our farmers preferring to raise grass.

Politics is a slow boat at this place. No one seems to care anything about it.

Uncle John Langley and wife, who have been on a visit to Madisonville for several days returned home Saturday.

Lem King, a former citizen of Nebo, but now of Hanson, paid us a flying visit Saturday.

Mr. Will Hodge and wife have been in Henderson the past week visiting friends and relatives.

A number of our young men are preparing for a hunting and fishing excursion. They are going to the lakes and will be absent several weeks.

A protracted meeting began at the Cumberland Presbyterian church last Sunday night and continued several days.

Rev. J. E. King, of Earlington, filled his regular appointment at the Methodist church last Sunday. His year is nearly gone. During the time he has been with us he has made a host of friends not only with his own members but with everyone that he has come in contact with.

R. P. Hill went to Providence Saturday.

Chris Hoffman is having a new roof put on his dwelling and several other ornaments added. When done he will have one of the neatest residences in Nebo.

We heard a man abusing the people of Nebo the other day and yet he is dependent on the patronage of the people of Nebo for a living.

Mr. Crick, our next jailer, was in Nebo last week.

Mrs. Thomas Bone and Miss Mildred Bone, of Madisonville, visited friends and relatives in Nebo last week.

Miss Allie Campbell, who is teaching near Nortonville, came to Nebo Saturday to see her father and mother.

Miss Blanche Hill returned from Louisville Thursday, where she has been purchasing a stock of fall millinery.

Farmers are about through housing tobacco.

We noticed a load of tobacco on our streets last Saturday. It was bought by J. T. Roberts.

Miss Lizzie Beaumont was in Nebo one night last week.

Hazel Tilford made a flying trip to Evansville last week.

Our town trustees have passed an ordinance forbidding ball playing on the street.

D. C. Morrow returned from Louisville this week, where he had been to purchase his fall and winter stock of goods.

H. R. Cox returned from Seebree this week.

Herbert Sights went to Seebree last week to take charge of the store of H. R. Cox.

Mrs. Sallie Darden is visiting her father and mother, Mr. and Mrs. W. W. Rutherford.

The ladies of the Cumberland Presbyterian church at this place deserve great credit for their untiring efforts in behalf of the church. They now have a nicely papered and a new carpet on the floor and they feel like they have as neat a house to worship in as there is in Nebo.

Mr. T. Hamby and wife visited Mrs. Hamby's father Saturday.

THE YOUNG MAN SHOULD WORK.

The following clipped from an exchange is well worthy of reproduction:

"There are young men in every community who have no occupation because they have not been able to find an opening in the particular line that suits their inclinations. They have gone along for years waiting for such an opening to occur, and have finally become dissatisfied with life. They have made a mistake and those who have encouraged them in such a course are likewise to blame. Perhaps it is some ambitious parent who has thus unwittingly injured his offspring. We use the word 'injured' advisedly, for no greater injury can come to a young man than to contract habits of thriftlessness in his early youth. If he has been reared to believe that something good would come to him because he happened to be the offspring of such a family, he has been grievously wronged. In this practical age only merit succeeds, and each individual must establish for himself that character in the business world which in to sustain his future. False pride has deterred many from the first step in what might have proved a successful career. Any honest employment is preferable to a life of idleness. The young man who remains without work for any considerable time gets the reputation of 'a ne'er do well,' and business men do not want that kind of help."

A new phase of Japanese character is exhibited as a result of the peace conference at Portsmouth. The rank and file of the Japanese people, if reports are to be credited, heartily disapprove of the terms of settlement agreed on with Russia. This would indicate that the masses in that country are far better fighters than diplomats. And yet we can not believe that this outburst of feeling, which has possibly cast a shadow momentarily upon the hitherto commendable character of that people, will result in any serious consequences. As the world sees it, the Japanese have achieved a victory at Portsmouth of far deeper significance than their brilliant exploits on the battlefield, and exhibited traits of character and virtues which seem to be wholly wanting in the Russians. He who, after conquering his foe in many battles, is able to conquer himself and his ambition and pride in the interest of peace and humanity, is a victor indeed worthy of the name. To voluntarily lift the laurel wreath from one's own brow in the presence of a foiled but flaunting foe, and with a modest dignity place it upon the statue of peace, is the bravest act of all. True, the short-sighted rabble on the stage may jeer momentarily, but the real actors in the play—yes, and the hero of the play—have been called before the curtain many, many times and heard the deafening plaudits of a world wide audience.

RAW BLEEDING SCALY ECZEMA

Looked More Like Piece of Raw Beef Than Human Being—Doctors Useless—Blessed Relief and First Real Sleep in Weeks After First Application, and

SPEEDY CURE BY CUTICURA REMEDIES

"Words cannot describe the terrible eczema I suffered with. I was almost a solid mass of sores from head to foot, and looked more like a piece of raw beef than a human being. Blood and pus oozed from a great sore on my scalp, from under my finger nails, and nearly all over my body, and every hair in my head fell out. I could not sit down, for my clothes would stick to the raw and bleeding flesh, making me cry out with pain. My doctor did all he could, but I got worse and worse. I did not think I could live, and wanted death to end my frightful sufferings. 'My mother-in-law begged me to try Cuticura. I said I would, but had no hope of recovery. But oh, what blessed relief I experienced after applying Cuticura Ointment. It cooled the bleeding and itching flesh, and brought me the first real sleep in weeks. It was as grateful as ice to a burning tongue. I would bathe with warm water and Cuticura Soap, then apply the Ointment freely and took the Resolvent for the blood. Soon the sores stopped running, the flesh began to heal, my hair started to grow, and in a short time I was completely cured. If any one doubts this, tell them to write me.—Mrs. Wm. Hunt, 135 Thomas St., Newark, N. J."

Complete Radical and Internal Treatment for every kind of skin disease, from Itchiness to Acne, Eczema, Psoriasis, etc. Cuticura Soap, Resolvent, and Ointment. Write for free literature. Cuticura Soap, Resolvent, and Ointment. Write for free literature.

What One Boy Thinks of Editors.

In a certain little country school house near Madisonville, literary exercises are held every Friday afternoon during the term. One day recently a twelve-year-old boy read the following essay on "Newspapers and Editors:"

"Newspapers are sheets of paper on which stuff is read is printed. The men look over the paper to see if their names are in it, and the women use it to put on shelves and sitch. I don't know how newspapers came into the world. I don't think God does. The bible says nothing about editors, and I never heard of one being in heaven. I guess the editors is the missing link them fellers talk about. The first editor I ever heard of was the feller who wrote up the flood. He has been here ever since. Some editors be long to church and some of them try to raise whiskers. All of them raise hell in their neighborhood and all of them are liars; at least I know, and I only know one. Editors never die. At least I never saw a dead one. Sometimes the paper dies, and the people feel glad, but some one starts it up again. Editors never went to school, because editors never got licked. Our paper is a mighty poor one, but we take it so that ma can use it on pantry shelves. Our editor don't amount to much, but pa says he had a poor chance when he was a boy. Pa hasn't paid his subscription in five years, and don't intend to."

New Appointments Made by City Council.

At a meeting of the Earlington City Council Monday night the following officers were appointed: Dr. W. K. Nisbet, Health Officer; W. A. Randolph, City Assessor. The gentlemen are well known and qualified for the position they have been chosen for.

Notice.

To the citizens of Earlington and especially those that have friends and loved ones laid to rest in the cemetery here, I would like for them to visit the place and inspect the work that has been done. I trust that it will give satisfaction and thank the people for their kind donation, which was \$100.00. The amount spent on cemetery was \$101.00. Respectfully,
JOHN TWYMAN.

PECULIAR CROPS.

Snakes, Skunks, Gingseng and Pheasants in Clark County, Ind.

Clark county probably raises the most varied crops of any section in the State of Indiana and has several peculiar industries, one of which is a skunk farm near Marysville, where the animals are raised for the pelts. Not far from this highly scented place is a dog farm in Washington township, where various breeds are reared and sold. In Charleston township is another dog farm, where nothing but coon dogs are looked after, the proprietors of the industry getting higher prices for them. Near Nabb is the headquarters of a side show, where snakes are bred for sale. There is a farm not far from Jeffersonville, where turtles are raised in large numbers.

In Bethlehem township a number of farmers devote a good part of their land to the culture of the sunflower, which is grown for its seed, and the crop this season is expected to reach 100 tons and bring in a revenue of \$3,000. In the same locality butter bean raising is a paying industry, and hundreds of gallons are now being shipped to Louisville and Cincinnati.

A ginseng farm on Camp creek, Washington township, is attracting considerable attention. Next year the first crop of roots will be gathered. On the knobs in the vicinity of St. Joseph's Hill, is probably the largest grape vineyard in Indiana, nearly the entire crop being used in making wine. Near Henryville is one of the few forest reservations in the country, and in this Monaghan pashants are being raised in large numbers. Almost in the town of Bethlehem is a peach orchard, one of the very few in the State of Indiana. Formerly Clark county furnished one-half of the orchard grass grown in this country, but the ground, so the farmers say, has become "tired" and the crop is no longer so large. The seed is all sent to Germany to be used in dye houses.

The Pay of School Teachers. World's work furnishes some striking figures on the pay of public school teachers. They are now more striking. They touch on the injustice of a system that gets all it can and pays as little as possible for it. It is not denied that teaching is hard work—hard and wearying, but the teacher, man or woman, who has

served a long period in the schools is not worth much for any other vocation at the end of that service. And the job, or profession, calls for not only years of preparation, but tact, patience, the highest order of intelligence and that something that has not been named, but is the ability to get along in the face of countless worries and obstacles.

Now, how about the pay? A coachman—an average, competent coachman, who can drive and who knows something about horses—is better paid than the average school teacher, for in the whole United States the average pay of women teachers is under 40 a month.

It is pointed out that in a certain locality of North Carolina a man who trains puppies for quail-hunting draws a better salary than any school teacher in the community.

In the State of Indiana 12,000 teachers receive less than \$400 per year each, and there are other States in which the showing would be worse.

Are the people of the United States in earnest about their desire for thorough education? And if they are, cannot they realize that while some—perhaps many thousands of good teachers—will work for a pittance because they must, the highest talent will get out of the business when opportunity offers, and that there is and will continue to be a scarcity of the best teachers because of the scant salaries paid and offered?

Modern education will not progress as it should, or produce the results desired, until there is more justice displayed in dealing with those who do the work and bear the burdens.

It is easy to relieve a cough or cure a cold after a copious evacuation of the bowels. Kennedy's Laxative Honey and Tar is the Original Laxative Cough Syrup. It acts on the bowels—expels all colds from the system, and cures coughs by removing the cause. This remedy clears the phlegm and strengthens the mucous membranes of the throat, chest, lungs and bronchial tubes. The honey and the red clover blossom is on every bottle of Kennedy's Laxative Honey and Tar. The Original Laxative Cough Syrup. Sold by Dr. Bernard Drug Store.

Chicago has \$250,000,000 worth of real estate, and during the last year the city consumed \$2,000,000 worth of beer. A great deal of the real estate is owned by persons who sell beer.

Write With Caution. Do not cure consumption forever. Do not cure consumption forever.

Here Next Week

To Measure Ladies and Gentlemen

To the Gentlemen

A first class tailor will arrive here next week sent to us direct from A. E. Anderson & Co., of Chicago. He will bring with him extra large samples of many kinds of fall and winter suitings shown by this leading tailoring firm. While here the representative will take measures for clothes. Come and have yours made to use later if not now. This man is an expert with the tape.

To the Ladies

The progressive firm of A. E. Anderson & Co. are offering an unequalled opportunity to ladies to secure the most stylish and up-to-date walking skirts at exceedingly low prices. These skirts are made to measure from men's woollens and made by men's tailors. A man will be here from Chicago next week prepared to show the season's latest styles and prettiest patterns. Come to our store and inspect the line.

BAILEY & CO.

THE BIG BUSY STORE

MADISONVILLE

KENTUCKY.

CASTLEBERRY ITEMS.

It is with sadness we report another sad chapter of accidents and deaths that occurred in our neighborhood last week. Genie Watson is 7 years old, stepson of Samuel Holmes, of Empire, was caught in the machinery of the shaker at the Empire mines and had both legs broken above the knee, but was reported as doing as well as could be expected when last heard from.

Johnny Samples, son of Wm. Samples, of near Mannington Station, was accidentally shot with a 22 target rifle and very seriously wounded, the ball entering his side, striking a rib and glancing upward and lodging near his shoulder point.

On Friday evening at sunset Ben P. Bowling departed this life. Mr. Bowling had been suffering for some time with a throat trouble, but was not thought to be very dangerously ill till a day or two before his death. Mr. Bowling was about 52 years of age, was a kind neighbor and good citizen and was well respected by all that knew him. He leaves a wife and three daughters to mourn his loss, and they have the sympathy of all their neighbors in their bereavement. Interment at the Campbell graveyard. Funeral services by Rev. P. F. Gladdish at grave the following day.

Several cases of typhoid fever reported on the farms of T. E. and Benny McEligitt, two or three families being stricken and some of the patients very bad, but it is hoped the attending physicians, Croft and Durham, may be able to check and control it before it spreads to the adjoining neighborhood.

The stockholders of the Terry Coal and Coke Company are going to visit its mines tomorrow on a tour of inspection and Mr. Driver, the local manager, is going to feast them on barbecued mutton.

Minutes of the Second District Association.

The Second District Association convened Sept. 8, 1905, at Grapevine.

The meeting was called to order by Mrs. Francis Young Kline.

After music and roll call, we were kindly welcomed by Miss Mande Wilkey.

Miss Mary Mothershead being absent, her subject of "Busy Work in the School Room" was discussed by the members of the association.

"Mission of the Teacher" was read by Miss Rosalie Brown.

"Why should School Room be Decorated?" was introduced by Miss Phoebe Potts and discussed with enthusiasm by the members present. Many good points were presented on the subject.

After which we adjourned, and enjoyed a bountiful dinner, served by the good people of the community.

After noon the session was opened with singing.

"Why do we Educate," was next discussed by Mrs. Kline, Miss Eunice Brown and others.

"What constitutes the Successful Teacher?" was introduced by Miss Hattie Gamblin and was further discussed by Miss Rosalie Brown and Mrs. Kline.

"Why Reading is so Necessary" and "Self Improvement of the Teacher" were next discussed by Mrs. Kline and others, the teachers being absent to whom the subjects were assigned.

The association extended their thanks and gratefulness for being so royally entertained by the good people of Grapevine.

The meeting was then dismissed.

Mrs. FRANCIS YOUNG KLINE, Pres.
Miss HATTIE GAMBLIN, Secy.

E. H. Linn

This signature is on every box of the genuine Laxative Bromo-Quinine Tablets. The remedy that cures a cold in 100 cases out of 100.

MINING NOTES.

The Bennett-Jellico Coal Company, of Knox county, filed articles of incorporation at Frankfort, Ky., last week. The capitalization of the company is \$50,000 and the incorporators will develop lands in the eastern part of the state.

The State Board of Prison Commission last week at Frankfort, Ky., awarded to T. R. Troendle, of Hopkinsville, the contract for supplying coal to the Frankfort penitentiary for the ensuing year for \$2.20 per ton, delivered at the institution.

Sec'y. and Treasurer R. M. Salmon, of the Crabtree Coal Co., at Ilesley, had the misfortune to have a foot mashed by a telephone pole last week.

Mr. Clarence Nisbet, who has been employed by the Providence Coal Company at Providence for several months, left last week for Lexington, where he will enter State College to complete a course in civil engineering.

One of the worst accidents that has happened in the mines operated by the St. Bernard Mining Company for some time occurred at the No. 11 mine near this place Friday morning. Motorman Henry McDowell, Jr., was coming out of the mine from the partition with a loaded trip of cars when on reaching the entrance the motor left the track and nineteen cars loaded with coal were derailed. Fortunately the motorman was not injured but he had a narrow escape. The motor was so badly damaged that repairs will have to be made before it can be used for service again. It required about eight hours of work before the mine was in condition for operation.

Barbourville, Ky., Sept. 9.—It is announced that the Lexington and Eastern railroad is preparing to build an extension from Jackson, Breathitt county, its present terminus, into the Elkhorn coaling fields of Pike county, near the Virginia line. The coal fields to be penetrated by this new line are among the richest in the South.

A test is being made for coal by F. M. Baker, of Dixon, on the farm of Wm. Fraser about half way between Providence and Clay in Webster county.

Gene Watson, a miner, employed by the Empire Coal and Coke Company at Empire, had both thighs broken one day last week at that place. He was standing, it seems, near a revolving shaft when his shirt sleeve caught in the machinery and he was whirled around several times before it could be stopped so his removal from the dangerous position that he was in could be accomplished. He will be unable to resume work for several months as a result of the accident.

Mr. J. B. Brasher, one of the purchasers of the Royal Coal Company's mines, near Madisonville, which were sold recently in Chicago, Ill., is purchasing new mining machines and other mining equipment for the purpose of increasing the output of the mine he has lately acquired an interest in.

Mr. Ashley Holloman has accepted a position as traveling salesman for the Brasher Coal Company, of Madisonville.

Fred Brown, who was burned by an explosion of powder and dynamite at the mines at Clay, Webster county, is in a critical condition and as he is gradually growing worse instead of improving his recovery is doubtful.

While at work in the mines of the Carbondale Coal Co., located at that place, near Ilesley, last Friday, Charles Davidson, a young man about twenty-two years of age, was seriously in-

jured by falling slate. It required ten hours it is said to remove the slate off the unfortunate man and fears are entertained that his injuries may prove fatal. Owen Peterson, who was working nearby when the accident happened was a slightly injured by the same piece of slate.

UNEARTHED A POT OF GOLD

Find of a White Man and a Negro in South Carolina—The Negro Handed Out of His Share.

Charlotte, N. C., Sept. 13.—An iron pot containing \$50,000 in gold coin, the newest of which is 115 years old, was found on the farm of James Rivers, near Chesterfield, S. C., by Tyler Teal, a white laborer, and Will Edwards, a negro, who engaged recently in digging a ditch. The pot was carried to a point two miles away and buried near a creek bank. When two days later, the finders went after the pot, it had mysteriously disappeared. The negro charged the white man with having appropriated and hidden the money from him, while Teal declares the story is all a joke and no pot was unearthed. Detectives have secured evidence confirming the discovery of the hidden wealth, but thus far no trace of the gold has been found.

THE ACCOUNT WAS SETTLED

Buchanan Cooper's Indigent Insane With Not Be Turned Out in the Cold.

St. Joseph, Mo., Sept. 13.—The county court capitulated when Dr. C. R. Woodson, superintendent of hospital for insane No. 3, read a few sections of the law, and reiterated the threat he made that he would deliver all the indigent insane patients at the courthouse inside of six hours if the bill for their keep was not paid at once. A warrant for \$12,253.80 was ordered drawn.

Will Select a New Ticket.

Philadelphia, Sept. 13.—As a result of the recent political upheaval in this city, the county ticket nominated by the republicans last spring prior to Mayor Weaver's fight against the gas lease, has been withdrawn and a new ticket will be selected by the city committee.

Injured By an Explosion.

Des Moines, Ia., Sept. 13.—As a result of an explosion of a steam cooker in the plant of the Gilman Canning Co., at Gilman, four men were injured, one of whom may die.

Fire at Logan, Utah.

Logan, Utah, Sept. 13.—Fire destroyed mechanical shops at the agricultural college of Utah. Loss, \$50,000; partly covered by insurance.

A SAD BLOW TO JAPANESE NAVY

The Battleship Mikasa Sunk with Great Loss of Life.

LIES IN HARBOR OF SASEBO

The Vessel Took Fire From Some Unknown Cause, the Flames Reaching the Magazine and Blowing Her Up.

Tokio, Sept. 13.—The navy department announces that the battleship Mikasa has been destroyed by fire and the explosion of her magazine, causing the loss of 199 in killed, wounded and missing, including men of other ships who went to the rescue.

Occurred Midnight Sunday.

The fire started from an unknown cause at midnight on Sunday night, September 10. Before the officers

could be rescued the fire reached the aft magazine, which exploded, blowing a hole in the port side of the vessel below the water line and causing the ship to sink.

The disaster has cast a gloom everywhere. The Mikasa was Vice-Admiral Togo's flagship and was endeared to the hearts of the people. The ship was at anchor in Sasebo harbor, when the fire started at the base of the mainmast. The Mikasa sank in shallow water, and it is believed the ship can be raised. Rescued parties were sent from the various warships in the harbor, and there were heavy casualties among them.

Various conjectures are current as to the cause of the fire. Some attribute it to an overcharge of electricity. Great relief was felt throughout Japan when it was learned that Admiral Togo was not on board the ship at the time of the fire.

Weeks after the sea of Japan the Mikasa was the heaviest loser of all the Japanese ships, having 63 killed and wounded. She approached nearer to the Russians than any other battleship.

The Mikasa was also the flagship of Admiral Togo after the great naval battle fought at Port Arthur on August 10, 1904, on which occasion the Japanese flagship also suffered the most, but continued in the fighting line. On that occasion the Mikasa had four officers and 29 men killed, 6 officers and 29 men severely wounded and 4 officers and 23 men slightly wounded.

Flagship of the Navy. The Mikasa was a first-class battleship of 15,300 tons displacement. She was built in England and was launched in 1902.

The Mikasa was the flagship of the Japanese navy, flying the flag of Vice-Admiral Togo, the commander-in-chief. She was present at all the principal engagements during the war and was on several occasions reported severely damaged in action. At the battle of the Sea of Japan she led the fleet into action, and her name was mentioned in connection with some of the most stirring events of this famous sea fight.

Revised Casualty Report.

London, Sept. 13.—The Tokyo correspondent of the Times says that the casualties resulting from the loss of the battleship Mikasa are five killed, 231 missing (supposedly drowned) and 347 wounded.

REGARDLESS OF SEX OR AGE

Tartars Took Unarmed Children to Their Doss, and Commit Other Depredations.

St. Petersburg, Sept. 13.—A holy war has been proclaimed in the Caucasian districts of Zangazur and Jerrahi, where Tartars are massacring the Armenians without distinction of sex or age.

The country is so arming with bands of Tartars under the leadership of their chiefs.

Many thousands of Tartar horsemen have crossed the Perso-Russian frontier and joined the insurgents in destroying Armenian villages.

At the village of Minkend 300 Armenians were slaughtered.

Dispatches say that mutilated children were thrown to the dogs, and that other depredations were committed.

Killed Man With His Fist.

St. Louis, Sept. 13.—Joseph Norman, a negro, held to answer for the death of Otto Frank, says he only struck Otto one blow with his fist.

For Attempted Jury Bribery.

Warrensburg, Mo., Sept. 13.—Walter L. Jones, a prominent stockman, pleaded guilty to attempted jury bribery and paid a fine of \$1,100.

Frightful Running Sores

and actual rotting away of the bones and flesh result frequently from lack of attention to the proper cleansing of the blood when it is a little out of order

It has been proven time beyond the shadow of a doubt that Foerg's Remedy will cure Specific Blood Poison—the king of all blood diseases. Therefore why fool with anything but this wonderful remedy if you have any of the mild forms of poisoned blood, such as Scrofula, Eruptions, Pimples, Catarrh, Rheumatism, Salt Rheum or Eczema?

FOERG'S REMEDY IS A SAFE REMEDY

Containing no mercury or other injurious substances it is an entirely vegetable product and is composed of some of the best and rarest drugs known to science.

Because of their expensive and rare nature, they are very seldom used by the practicing druggist.

The formula from which Foerg's Remedy is made is the result of many years of research and practice of an eminent physician, who found it wonderfully successful.

If you are a victim of specific blood poisoning, scrofula, or any other form of insidious blood poisoning, your future happiness depends upon whether you recognize in our claims for Foerg's Remedy the ring of truth and sincerity which inspires them, and also whether you recognize these qualities in our statements—You are willing to give Foerg's Remedy a fair chance to relieve your present suffering, and, by cleansing

your system of the foul disease which now contaminates it, grant you a new lease on manhood or womanhood.

Remember, also, if you have been a user of mercury or other mineral poisons, your case is not out with less dangerous.

More than ever do you need the wholesome, active, purifying power of Foerg's Remedy to rid your system of this most loathsome drug.

Act now on the impulse that is in your heart, do to your druggist or write us and procure the remedy.

What is a five-dollar bill in comparison with a lifetime of continued misery?

If your druggist does not handle this remedy send us \$1 for one bottle or \$5 for six bottles with our absolute guarantee or money returned by transfer of this company in full. All packages sent in plain wrappers. All correspondence strictly confidential.

Around the Farm

Why Use the Pure Bred Seed Corn?

It is well known by farmers that in the average corn field there is a large per cent. of stalks without ears, or only bearing "nubbins." The purpose of pure bred seed corn is to secure one ear at least to each stalk of corn, and this has been nearly if not quite accomplished in selection and pure breeding. It is readily seen how this secures a great increase of bushels per acre over those of the average corn fields. When planted the regular distance apart each way in hills, an acre of ground will have 9,300 hills. If anything like fair corn land each hill will produce not less than two ears. When each stalk bears an ear, which it does when pure bred seed is used, that would secure 6,600 ears, and with average sized ears on good land, it is estimated that 80 will make a bushel. It is therefore readily seen that with such results over 80 bushels of corn may be grown to the acre. These facts illustrate the importance of pure bred seed corn. Usually when more than two stalks are grown to the hill the result is more nubbins than ears, and therefore really less bushels of corn. In securing seed corn for the coming season it is well to consider these things.

Growing Damson Plums

Those who contemplate growing Damson plums can do so with no fear of the business soon being overtaken. There are but few trees in this country of any note. The trees require close attention, making it almost impossible for one grower to have many acres, as is often the case with apples or peaches. The Damson plum offers to fruit growers who will pay close attention to their trees much better chance to realize a good income than from many other fruits.

Coal Ashes and Soil

There is little fertility in coal ashes, but they can be made of some use in the garden. If the soil is hard and compact an addition of coal ashes will do it good. They may be put on liberally. Most soils are improved in texture by them. But plant food of some kind should be added, something which is in an available form. The ashes aid to keep the ground moist. A mulch of

them is excellent for currants and gooseberries, which enjoy a soil that is damp and cool. Around pear trees they are good, and should do as well for other kinds of fruit trees. There are uses for coal ashes where there is a garden. Quite a quantity can be disposed of every year.

Rural Mail Boxes Not Private.

A rural mail carrier found in a box on his route two unstamped letters intended for the owner of the box, and put there by someone in passing. The letters were confiscated and sent to Washington with a request for a ruling. The government approved the action of the carrier and said that all mail found in any box without stamps or the proper amount for postage must be taken to the postoffice and held for postage. This means that the owner of a box has no control over it.

Successful Vinegar Making.

The New York Agricultural Experiment station at Geneva was asked to ascertain the causes of poor quality, and to outline the methods of securing good vinegar. It is found that, properly done, there should be no difficulty in making vinegar containing the required 4.5 per cent. of acid from New York State apples; and by careful control of conditions the time of making may be considerably shortened. If the cider is not properly made and handled, however, the vinegar may easily fall below the standard, through failure to reach the required acidity, or through deterioration after the acid has formed. Only sound, ripe apples should be used, avoiding dirty fruit or washing before pressing. Use only juice from the best pressing, place in clean barrels which have been treated with hot water or steam to destroy undesirable germs. The barrels should not be full, nor tightly corked, as free access of air is desirable. In ordinary cellar temperatures the first stage, the alcoholic fermentation, should be complete in five or six months; but by storing in warmer rooms, and by the use of yeast the time can be much shortened. The second stage, the acetic fermentation, may be hastened by heat and by use of a good "starter" or "mother," or sharp vinegar. When the

required acidity is reached the barrel should be filled to the bung and corked tightly to avoid undesirable fermentations.

Household Hints.

When hanging potatoes prick them deeply with a fork before putting them in the oven. They will cook better and quicker for the pricking. When mashing potatoes use hot milk, and if you have been in the habit of using cold you will be surprised at the difference in their lightness. When making jam, if a clean half dollar is placed in the bottom of the preserving pan the fruit will not require stirring, and it will keep beautifully whole. The coin keeps the jam by continually moving while the water is boiling.

Apples fresh from the tree should never be eaten without first being washed, as they are in a good position to collect the dust and germs of the air.

A little left-over jam or jelly will make a tempting addition to baked apples. Drop a teaspoonful in the core of each apple before it is baked.

Feeding Dish Water to Pigs.

It is a common practice to save the dish water as slop for pigs, but as this often contains washing soda, dogs fed on such slop are always out of whack and often sickened and die. The symptoms and course of the disease appear much like cholera. Diarrhea, vomiting, fever, lameness, partial paralysis, nervous disturbance and death frequently occur. The course of the disease from a few hours to several days, apparently depending upon the amount of alkali ingested at one time. Death occurs in the majority of cases. Upon post mortem examination, the lymphatic glands along the bowels are found swollen and dark colored. The mucous membrane lining the intestines is pale and shiny. Other internal organs are also involved. The treatment is really preventive and consists in avoiding the feeding of slops containing these alkalies.—Field and Farm.

Local Irritation.

Itching, which induces a horse to rub the legs together, stamp on the stable floor and otherwise exhibit signs of impatience, should lead to a careful search for possible causes of local irritation. Antimal or vegetable parasites may locate themselves on the skin of the extremities and remain under the close covering of hair without being detected. Get

rid of the irritation by the free use of soap and hot water, followed by a two per cent. solution of carbolic acid.

Farm Notes.

In making good butter there is always time to do everything just right. If you find there is not time, then you are not making good butter.

Cow pea hay is the refinement of feeding. Like silage, the more one has of it the happier he is, and when it gives out the greater the consternation. Cows do best on what they like best.

The farmer is more than a digger in the soil. So if we want our boy to be something more, let us keep him in school just as long as it is possible for us to do so, as long as he is making good use of time and money and interested in gaining knowledge. We must sacrifice and work that our boy may expand.

A prime requisite is to keep the poultry house dry. As fresh air leads in this direction, it goes without saying that plenty of fresh air should be circulating all the time. If the hen houses are dry that dreaded disease, roup, is not apt to get a foothold. The houses should be aired every day, rain, hail or shine.

Better educate boys and we shall do better work, create better society, and build up stronger character; life will mean more to all. We all agree that ministers, lawyers, doctors, etc., should be liberally educated; but why not the boy who hopes to be a successful farmer? We are educated for life, not for business alone; our work is not an end, which is a larger life.

Some claim that skim milk and corn make a balanced ration. Whether this is so or not, one thing is true: If hens are given skim milk they get more protein than they can get from corn alone.

We believe skim milk fed to laying hens when eggs are twenty-five cents per dozen will pay a better dividend than if fed to pigs when live hogs are four cents per pound. What do our readers think about it?

In feeding dairy cows for a large milk yield, individually must be studied to obtain maximum results, because cows differ. It is customary to estimate a certain amount of feed for a thousand pound cow, but some cows weighing 900 pounds will eat and make good use of more feed than other cows weighing 1,000. It pays to give a dairy cow all the feed she can eat provided she returns a proper equivalent at the milk pail. Otherwise it is better to replace her with one that will do so.

Gaining in Popularity Daily.

A prominent Druggist says: "Hughes' Tonic has given more satisfaction than any other pills I have sold."

Sold by Druggists—50c and \$1.00 bottles.

ROBINSON-PETTER CO. (Inc.), Louisville, Ky.

Receives Five Years Sentence.

In the trial of A. B. Scott at Greenville last week charged with the murder of Dennis Slattery at Luzerne last December, a sentence of five years in the penitentiary was imposed by the circuit court. Slattery formerly lived at this place but was working at Luzerne at the time of his death. The tragedy occurred over a trivial matter.

Sprains.

S. A. Read, Cisco, Tex., writes, March 11, 1901: "My wrist was sprained so badly by a fall that it was useless, and after using several remedies that failed to give relief, used Ballard's Snow Liniment, and was cured. I earnestly recommend it to anyone suffering from sprains." Sold by Dr. Farber Drug Store.

For Sale.

One full sized lot 50x150 feet. Good building lot in good neighborhood. Will sell cheap. J. E. FAWCETT.

VALUABLE INFORMATION

Each man has a chance in a lifetime to reach the point of success, and this opportunity is offered in Missouri, Arkansas and Louisiana, the three great agricultural and timber States, traversed by the Iron Mountain Route, where land can be purchased at from \$3.50 to \$20.00 per acre, that is producing from \$30 to \$500 per acre each year, in cotton, corn, hay, sugar cane, fruit and vegetables. The returns from alfalfa growing in this district have proven a record breaker—six crops each year or six tons per acre at \$15.00 per ton on local markets is what is claimed. All that is necessary is for the homemaker or investor to look over the situation personally, as the country speaks for itself, and on the first and third Tuesdays of each month, Homestead tickets are offered at rate of one fare plus \$2.00 for the round trip. Fourty trains from St. Louis. Free revolving chair cars.

Write us and we will furnish free descriptive literature and further information regarding our wonderful territory.
